## **A CRISIS – AN APPEAL!**

23<sup>rd</sup> May 2002

To all souls of good will,

The Mission of Our Holy Mother has come of age. It has been in existence for twenty years and, thanks be to God, it has survived much betrayal, heavy persecution from the Church, Government Bodies, the Media world-wide, Authors, Institutions, Police, investigation by the Tax Department, and by Seers, family and friends. Most of the persecution has been caused through betrayal by good souls who once believed, but later denied the truth.

However in spite of all, the Mission of Our Holy Mother has progressed – especially with the ‘fruit’ from the Order of Saint Charbel - which has spread to one-hundred-and-sixty countries, with tens of thousands of Prayer Houses. There are now over thirty Communities throughout the world, with Priests, Religious Sisters and Brothers, and many families, and young adults. There are also Schools, and organized corporal works of mercy run by the members of the Order, in many parts of the world.

Over the twenty years I have personally helped many souls – not only in spiritually, but also financially - assisting with homes, employment, schooling, and in many other ways. Yet, after all this, the very souls I have helped are the very ones who have betrayed me. Now several of them are taking me to court, asking for the funds they had previously donated to the Mission ten to fifteen years ago - to be returned. All of this has placed a great burden upon me, personally, and upon the Mission as a whole.

Since many of the prophecies have been delayed, people in general have lost faith and hope – more so since 1997. Division and disunity has struck everywhere, making the road even more difficult to stay on. This brings me to the reason for this letter of appeal.

From the very beginning of the Mission I have had to rely on donations from generous souls for assistance, and I am very grateful for this, and thank all benefactors who have, over many years, been my main support. However, due to the critical situation I am in need of financial assistance. Donations in general were always forthcoming over the first fifteen years. However, these dropped, considerably, due to the climate I have just mentioned. So now, because of the countless lawsuits, it has left me in great difficulties where I now need to appeal to all souls of good will to assist me. I well understand the times we are living in and how difficult it is for most people now. I also know that God sends benefactors to assist as He has always done. So, dear souls, I appeal to you for help. Please pray to God for His gracious Hand to fall upon us now in our needs. I thank you once again for your past generosity and for your prayers, and may God give you Blessings in abundance.

Those souls who can help, please send your donation to: William Kamm, or
