24th February, 2004

Most Honourable President Bush,
Prime Minister Tony Blair
Prime Minister John Howard

Dear President and Prime Ministers,

I greet you in the Name of Jesus Our Lord!

Some months ago I wrote advising you not to succumb to the pressure of the masses, or the political machinery – especially the Media – making you and the public believe the “weapons of mass destruction” do not exist; even blaming you for the invasion of Iraq and for the war. Do not follow this negativeness, for God is with you.

Once again I wish to advise you that the “weapons of mass destruction” are still there, hidden, and at times are moved to different parts of the country – also to the neighbouring countries of Kuwait, Syria and Saudi Arabia. I am giving you a map to show you the points as to where these weapons are.

The place **Tikrit**: it is near a school and small mosque. The following are the towns you must look at:

Al Amārah - Ur - An Nāṣīriyah - As Salmān - Karbalā

Check all the mosques and schools. See on the map where I have placed the crosses; these are the places where you must look. They are hidden in small mosques where no one would think to look.

Be extremely careful, as you have many enemies within your Governments and the Intelligence Forces – that is why you have not found the evidence.

Secondly, be watchful for the time of the month known as **Dhul Hya**.

Thirdly, closely guard Saddam Hussein, because there is a plan to help him escape.

Fourthly, please be careful, as one of you will be threatened with your life, causing your nation to riot, and bringing it to the brink of war.

One of you will have strong opposition, and should you lose the election, the nation will fall down. Sad to say, one of you will become ill; so watch your health, carefully.

Lastly, at the time of the Muslim Pilgrimage to Mecca, a very sad event will take place, dividing many people and faiths.

So once again, dear Leaders of the Free World, please follow Heaven’s instructions so that humanity will be protected, and you will be vindicated from the aggressive behaviour of the populace.

Wishing God’s Blessing upon you.

William Kamm,
