PRESS RELEASE

August 2, 2003

The Honourable President George Bush
The Honourable Prime Minister Tony Blair
The Honourable Prime Minister John Howard

I greet you in the name of Jesus Our Loving Lord.

Earlier this year, I wrote to you to congratulate you on your courageous stand to proceed to wage a War on Terrorism and more so to go to War against the Regime of Iraq governed by Saddam Hussein – especially with the threat of the Weapons of Mass Destruction.

You proceeded in your good-will for the protection of the people of your Nations and that of the world security – even when the majority of the populace spoke against your action.

All War is evil, but sometimes necessary for the protection of the dignity of man and the true ideals of Peace and harmony and brotherhood.

Your great gamble won the acclaim of the world many months later as the War turned out to be swift without too many casualties.

But now the people are once again voicing their concerns that no Weapons of Mass Destruction are found.

The World Power Group wish to topple the three Leaders down – to make way for their own agenda.

Do not be swayed or lose sight of the goal you set out to do. Do not be discouraged.

The Weapons of Mass Destruction are there as I have told you – as directed by Jesus Himself. They are hidden deep in protective areas under the Mosques that are protected by the Leaders – and soon an event will trigger this off to prove this point.

Saddam Hussein is not dead – he directs the underground resistance against his own people and against the Allied Forces.

Be careful, watch and send more undercover agents deep within the Islamic region – which still desires the destruction of the free Christian Nations.

The three Countries – Allied Forces will be attacked in major Terrorist attacks when we all least expect it.

I wish God's Blessings to you and pray you will find the Mosque that Jesus has mentioned to you.

God Bless,

William Kamm
