A MAJOR PRESS RELEASE

The Great Cataclysm is near THE WARNING The Apocalypse 16-18 God's Wrath of the Seventh Cup

I address the great and small! Please take heed of all that I am telling you because the world is approaching a very dangerous time.

The approach of A COMET

These are the signs to look for, to know that all is near:

1. Two very large nations will prepare for war.
2. The Pope leaves Rome. People will be looking for him, and will claim that he has died. A new Pope will then be elected. (You should then take your money out of the bank).
3. The stock market will collapse, which will cause financial panic.
4. A White Cross will be seen in the sky - for seven days. There will be an explosion in the sun.
5. The Government and Media will advise the public about an approaching comet.
6. Forty-eight hours before the comet hits the Earth, millions of people will vanish.
7. As the comet nears, its tail will encircle the Earth. A white fog will then envelope the Earth.

The comet will hit the Earth in the ocean. A major earthquake will occur, and the waters will rise and cover the islands and the major part of the land masses. One quarter of the world population will die. However, the human race will survive, and mankind will be enlightened.

Those in the cities should go into the country - into a house or shelter.

Australia: Queensland, Western Australia, the Northern Territory, South Australia and Tasmania will go.

When you hear of the first event - that is the time to move.

Those living in Wollongong will need to leave. Those living in Sydney and Newcastle will also need to evacuate, as well as those living along the Coastal areas.

When you see the White Cross - turn to God.

Store water, food, warm clothing for seven days, wherever you are.

For the Catholics who read this: have a supply of Blessed candles in your home, and go to Confession. All power will cease - no machines will work.

For more information read our Website.

I will pray for all people, and wish God's Protection upon you.

God Bless,

William Kamm
