## **PRESS RELEASE**

**28<sup>th</sup> April, 2003**

To the people of Australia and around the world:

The disease called S.A.R.S. was revealed by God in the 1980's where He said that the disease would plague the world. There is a cure, and it is simple, but effective:

- Crush half a large fresh garlic clove and several slices of fresh ginger root in a cup.
- Add one tablespoon of lemon juice;
- One teaspoon of honey;
- Some dried Hawthorn Bush leaves;
- Pour boiling water over the ingredients;
- Let set for at least five minutes;
- Do not boil again.
- Take this drink one hour before bedtime
- If one has the symptoms, take the drink three times a day.
- A garlic tablet or capsule may be substituted if one cannot take fresh garlic.

In 1986 Our Lady answered a question of the 'Little Pebble' regarding the deadly flu: "*The Hawthorn Bush goes well with the ginger and garlic to combat the influence of the flu, which will be deadly for many.*"

Wishing God's Blessings to all.

*The Little Pebble*
